

Expressive Arts

In the Expressive Arts Area of Learning and Experience (AoLE), we recognise that although each discipline has its own discrete body of knowledge and skills, together they share many similar creative processes.

At Porthcawl Primary, we want our learners to develop their creative imaginations, use their senses and enjoy experiences of the arts. Whether as creators or as an audience, our learners will gain an understanding and an appreciation of cultures and societies in Wales and around the world. This will equip them with the skills to explore cultural differences through time and place.

Across the Expressive Arts disciplines, learners will be taught skills discretely and provided with opportunities to develop and apply these skills independently through a range of contexts. They will be provided with opportunities to develop their understanding of specific skills to express, create, respond and reflect upon their own interpretations of a given theme that is personal and individual to each learner.
