

Let's get ordering

We often do things in a certain order.

Think about all the different things you do in a day.

What is the **first** thing you do?

What is the **last** thing you do?

Draw all the different things you do to get ready for school.

Can you put them in order?

Do you know what time you go to bed?

Do you know what time you get up?

Can you find the times on a clock?
