

What would you ask an astronaut?

After listening to the story, see if your child can think of some questions they would like to ask somebody who has been to space!

Imagine you met a real astronaut. What questions would you like to ask them? I know there are many things I would like to find out about space!

Can you see the planet Earth from space?

Can you see the stars twinkling when you are in space?

Have you ever met an alien?

Is the moon really made of cheese?
